

Hacky Sack

On March 8, 1972, the Hacky Sack was born when Mike Marshall was kicking around a handmade bean bag and was joined by his friend, John Stalberger. They called the game "Hackin' the Sack" and later changed it to "Hacky Sack." Players stand in a circle and pass the Hacky Sack around, keeping it off the ground without using their hands. How long can you keep the Hacky Sack going?
