

Eight Page Booklet

By Rachel Woods, LDS Guide, Ids.about.com

Take a regular 8 1/2 x 11 paper. Follow these instructions by making mountain folds at the long — — dotted lines and valley folds at the short - - dotted lines.

Mountain folds make the paper fold downwards like this: **^**

Valley folds make the paper fold upwards like this: **v**

It's okay if you have trouble making your first one, consider it your practice one, then try again!

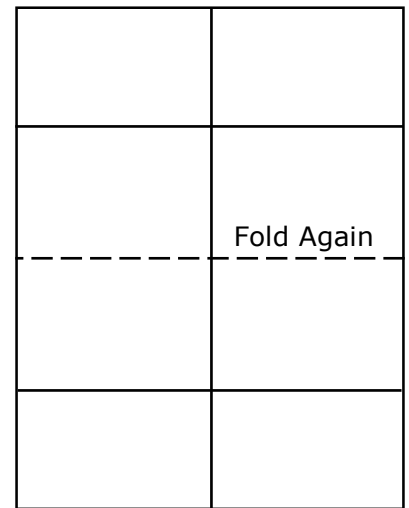

1 & 2: Place the paper face down and fold in half, open and fold in half (valley folds)

3 & 4: Open and turn over so the paper is face up. Now make two more valley folds. Because paper is now face up the first two folds will look like mountain folds.

5: Open and fold in half again. This fold is the same fold but because the paper is facing up it is a mountain fold.

5b: Your paper should look like this:

6: Now make a cut along the fold half way up:

7. Open your paper and fold in half long ways, like this:

8. Now hold the left and right ends and push them towards each other, causing the middle to pop open into a diamond shape.

9. Keep pushing to flatten the diamond until your paper looks like a plus sign, like this:

10. Make a mountain fold along the fold line between the front and back of the booklet, closing all the pages together and finishing your booklet!

Remember if you're having trouble just keep trying, you'll get it!
