

Fantasy Shopping Spree

Student's Name _____

For this project you will have a budget of \$50 for each person in your family. All numbers go on the right side of the T, all numbers go on the left side.

1. Choose a gift for each person in your family and paste it on their shopping planning sheet.
2. Put their name and the item on the left. Put the amount on the right.
3. Add your "purchases" together. Add them at the bottom. Multiply by the sales tax in your state.
4. Add and subtract from your budget. Check the rubric to see how you did.

Number of People X \$50 =

Total

X sales tax
