

Social Skills Cartoon: Initiating an Interaction with a Girl

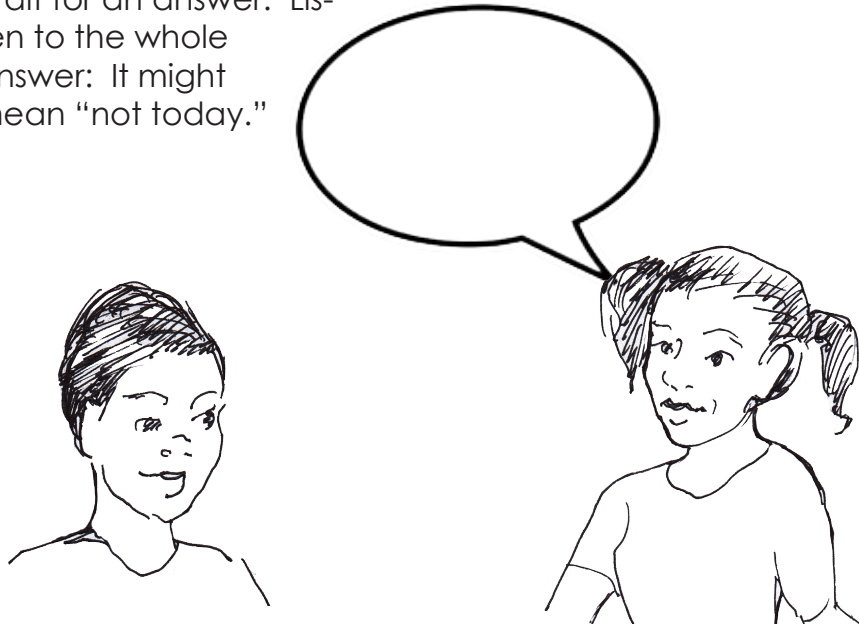

Think about what you want to say to the girl: Do you know her? Would you like to know her better? What will you ask her?

Greet the girl. Ask her a question that will help you to take the next step: Does she like sports? Is she waiting for a friend.

Wait for an answer. Listen to the whole answer: It might mean "not today."

This is a good time to ask another question, perhaps to do something another time.
